### Site A demolition update: Edition 2

This email provides a brief overview of what happened in the previous week and what you can expect to happen next week.

If you have any questions about the demolition programme, you can contact Adrian Buch, the Project Manager, by using the following:

---

### Last week

Below is what happened last week as part of the demolition of Site A:

- A local resident has been employed by Keltbray as a Demolition Labourer following attendance at the Westminster Employability Day that took place at Greenside Community Centre on 13 September. They started on Tuesday 1st October
- Installation of hoarding on Broadley Street
- The removal of internal fixtures and fittings inside Ingrebourne House

---

## Next week

Below is what is expected to happen next week.

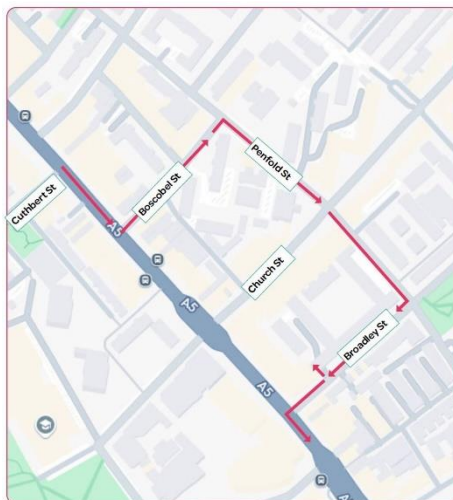

- Continue installation of hoarding on Broadley Street.
- Gate installation on Broadley Street
- Soft strip works to Ingerbourne House
- Soft Strip to Lambourne House

---

## Traffic coming and going from the site

Every effort will be made to reduce disruption to the area from traffic coming and going from the site. As a part of this:

- Traffic Marshals will guide vehicles in and out of the site.
- There are to be no deliveries to the site before 8 am and after 5.30 pm on Monday to Friday.
- Vehicle movements will, as much as possible, avoid busy times.
- All haulage drivers are trained to the highest standard and will follow the route shown.

Keltbray and the council will monitor the impact of this route throughout demolition and, based on the results of this monitoring and resident feedback, will examine how we can further improve its operation.
